DEPARTMENT OF ENERGY  
FEDERAL ENERGY REGULATORY COMMISSION

Lock Hydro Friends Fund III

Project No. 14673-000

NOTICE OF PRELIMINARY PERMIT APPLICATION ACCEPTED FOR FILING AND  
SOLICITING COMMENTS, MOTIONS TO INTERVENE, AND COMPETING  
APPLICATIONS

On March 30, 2015, Lock Hydro Friends Fund III, filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of a hydropower project to be located at the U.S. Army Corps of Engineers' (Corps) Coffeerville Lock and Dam on the Tombigbee River near the town of Coffeerville in Clark and Choctaw Counties, Alabama. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) a 150-foot-long, 25-foot-wide lock frame module containing twelve generating units with a total capacity of 27 megawatts; (2) a 150-foot-long; 65-foot-wide tailrace; (3) a 50-foot-long, 25-foot-wide switchyard; and (4) a 1-mile-long, 34.5kV transmission line. The proposed project would have an estimated average annual generation of 153,738 megawatt-hours, and operate as directed by the Corps.
